Hi, I'm an aspiring User Experience Researcher. I want to be surrounded by people who are willing to step out of their comfort zones and stretch their minds in order to excel and go beyond the limits of current technology. Let's make a difference together!

EDUCATION

Pacific Lutheran University | 2017
B.S. Computer Science
B.S. Psychology

University of California LA | 2014
User Experience Certificate

SKILLS

Usability	● ● ● ● ●	Research	● ● ● ● ●
Qualitative	● ● ● ● ●	Quantitative	● ● ● ● ●
Java	● ● ● ● ●	Analysis	● ● ● ● ●

EXPERIENCE

Resident Assistant | 2015
Pacific Lutheran University
Parkland, WA

Microsoft Usability Testing | 2014
Microsoft Campus
Redmond, WA

STEM Outreach | 2013 – 2014
Baker and First Creek Middle Schools
Tacoma, WA

- Serve as a role model, resource, and leader in the community by developing individual relationships with each resident.
- Available constantly to residents, proactive with facilities concerns, perform walkthroughs of building and complete duty logs in a timely manner.
- Provide opportunities to encourage resident learning and interaction through planned events.
- Conducted user research through 10 usability studies on a new product to improve user experience.
- Collected and analyzed user behavior data through user testing, semi-formal interviews, observation, and studies.
- Collaborated with the design team in order to improve user experience throughout the studies based on the results.
- Effectively communicated results to the product and design teams through clear writing and video summaries of footage taken during the usability studies.
- Served as a role model to encourage young minds to pursue degrees in STEM based fields.
- Communicated and shared information with middle school students about online resources through planned daily activities.
